Three Ways to Engage Staff in More Content

1. Share content with your staff as an elective option. Go to Learning > Modules > Module List.

Click on the link icon next to the module's name. This will copy the link for this course to your clipboard which you can then send to users. When learners click this link, they will be enrolled in the course as an elective and taken directly to the course.

Building a training plan is broken into five steps:

- **Properties** – Give your training plan a unique name. Adding a description is optional.
- **Scheduling** – Choose the frequency for how often learners are assigned the training plan (Once, Annually, or Flexible reassignment based on date of last completion). Select answers to the scheduling questions based on how you want modules to be assigned.
- **Modules** – Click on the + **Add Module** button and search for modules in the list. Click on the check box beside the module name and click + **Add to List**. You also have the ability to stagger due dates in this section by adding days to the boxes on the right.
- **Settings** – Depending on how often the training plan is assigned, this section will give different options. Here, you can decide the time period in which you will accept previous completions, choose whether to enable training notifications, and approve for enrollment.
- **Review** – Summary of how the training plan will assign based on the options selected in the previous sections.
